The WIL to Succeed in Tomorrow's Digital Job Market – Innovation Ready Grads (WIL DIGITAL)

- ICTC is one of the partners that will deliver the SWILP program
- According to ICTC's recent outlook report: [The Next Talent Wave: Navigating the Digital Shift - Outlook 2021](#), around **216,000 digital professionals will be needed by 2021.**
- WIL DIGITAL is an amazing opportunity to shape Canada's future workforce.
- Employers & educational institutions will work jointly to help develop models that meet employers' business needs & educational institution mandate .

About the Program

- *National initiative; EN and FR*
 - *Open to any size employer & any post-secondary educational institution*
1. Industry & Education Partnerships – WIL models
 2. WIL Matching
 3. Job insights and connectivity
 4. Facilitated consultations & webinars with industry & PSEs
 5. Best practice knowledge sharing & stakeholder mobilization
 6. Measurement & Evaluation

Why WIL?

- WIL experiences are critical to help students better align to industry needs & improve employment outcomes/career paths
- Expand on WIL approaches in an effective way where students will be able to gain the valuable practical work experience
- Help employers acquire talent they otherwise would not be able to
- Help educational institutions provide increased pathways to employment for students & support enhanced alignment of industry & education

WIL Digital Outcomes

- Increased # of WIL opportunities created by employers for PSE students in STEM and business fields
- Increased participation of PSE students in WIL opportunities related to their study
- Increased # of employers & educational institutions in key sectors partnering on WIL strategies – models
- Increased, sustained and formalized industry-education partnerships to continue the development of quality WIL opportunities to better align the technical, foundational and entrepreneurial and “work-ready” skills of students

WIL DIGITAL

- The employer is eligible to receive:
 - Up to 50% of wages or up to \$5,000 to provide students with meaningful WIL opportunities that develop foundational and entrepreneurship/business skills;
 - Up to 70% of wages or up to \$7,000 to provide students with meaningful WIL opportunities that develop foundational and entrepreneurship/business skills for the following under-represented students:
 1. women in science, technology, engineering and mathematics (STEM),
 2. Indigenous students,
 3. recent immigrants (last 5 years),
 4. persons with disabilities, and
 5. first-year students.

Employer's eligibility criteria

- You are a Canadian employer looking to hire ICT/digital students in one of these emerging or growth sectors :
 - Intelligent retail,
 - Fintech,
 - Advanced manufacturing, or
 - Any identified high-growth sector
- You are interested in providing a paid and meaningful work integrated learning (WIL) experience to a student coming from a post-secondary institution in Canada for **maximum 16 weeks.**

Student's eligibility criteria

- Have been registered as a full-time student in a post-secondary institution or have graduated recently from a post-secondary institution (within 12 months, regardless of age.
- Be a Canadian citizen, permanent resident or a protected as defined by the Immigration and Refugee Protection Act
- Be legally entitled to work in Canada and legally entitled to work according to specific province legislation and regulations.
- Provide a proof of full-time enrollment in the field of business or STEM (e.g. enrollment verification letter issued by the school).

Application process and expected results

- Submit the application forms and documents online.

[Student Application Form](#)

[Host Employer Application Form](#)

- Processing time approx. 1 week – 2 weeks
- 5% cap on applications from recent graduates
- 10% of participants from under-represented groups
- WIL placements: 150 in the first year and 255 in the second year
- Establish at least 3 multi-stakeholder partnerships /expert advisory groups in Fintech, Advanced manufacturing, and Intelligent retail

Post-secondary education - Involvement

- Creative WILs – Models
- Working together with us and industry to develop learning frameworks for emerging sectors
- Leverage existing programs to embed WIL
- Advisory committee engagement

Thank You.
